

Hanging Flower Baskets in 6 Styles – Transform Your City with Flowers!

More and more cities are choosing to invest in urban greenery. Flowers now adorn parks and squares, as well as streets, lamp posts, and the areas around residential buildings, hotels, and restaurants. This is a wonderful way to enhance aesthetics and create a friendly, harmonious atmosphere in places frequented daily by residents and tourists alike. Hanging flower baskets are an elegant solution to introduce greenery where traditional planters are not practical – on lamp posts, poles, or other elements of urban infrastructure.

With this in mind, we have developed a new collection of hanging flower baskets that are not only visually appealing but also functional and durable. Our range includes six new exceptional models:

Best – Classic Design at Its Fines

This flower basket is a versatile solution for mounting on posts of various diameters. Thanks to its two-part construction, installation is quick and easy.

Its deep shape allows for planting species with extensive root systems, while the classic colors – green and black – ensure it blends harmoniously into the surroundings.

Best Cup – Modern Elegance

A slightly different shape, but the same possibilities – the Best Cup model is the perfect choice for those who appreciate subtle details. Available in classic colors, it fits seamlessly into both modern and more traditional urban designs.

Barist – Sleek and Lightweight

This model stands out with its smooth, slender shape that exudes elegance.

It works especially well in combinations – a duo of Barist flower boxes on a single lamp post creates a harmonious composition, adding a sense of lightness and freshness to the space.

Cesar – A Touch of Antique Charm

This model stands out thanks to both its color and its form. The beige tone and Roman architecture-inspired design make it the perfect choice for those looking to add a distinctive touch to their surroundings.

In many cities, flower boxes like this are rare – perhaps this is your chance to stand out from the crowd?

Woven – Natural Look, Unmatched Durability

The Woven model is a remarkably realistic take on a woven wicker basket.

Its rich brown color and textured surface bring a warm, inviting feel to any space, while its exceptional durability speaks for itself – all our flower boxes come with an impressive 10-year warranty!

□ All our flower boxes are designed with durability and functionality in mind. With them, any lamp post can become a carrier of greenery, making public spaces more beautiful and inviting.
