One of the undeniable symbols of these special days is the colorful baubles that adorn Christmas trees and bring that unique aura of holiday magic to our homes.

Each of us surely has our own memories associated with baubles. They can be small spheres, just 2 centimeters in

diameter, gently flickering on the branches of the tree, or enormous, dazzling decorations that we see in shopping malls, car showrooms, and even on busy city roundabouts. Baubles can be made of glass, plastic, and sometimes even unusual materials like wood or wicker. They are a symbol of tradition, love for the holidays, and fine craftsmanship.
