## **Easter eggs for public space – what and how?**

Public space is more and more often decorated not only at Christmas, but also at Easter. In this sunny time, traditional Easter eggs appear on the streets and squares. In recent years openwork decorations have been a hit but this season we propose an innovation – 2D City Easter Eggs and their three-dimensional equivalents.

What makes the latest ideas for cities special? First of all, their innovative form. Breaking conventions, we focus on an unusual shape of Easter eggs. Furthermore, the used materials are noteworthy – they are light and weather-resistant, and can be placed anywhere, also on lawns or squares with a concrete surface. Thanks to a specially developed rack, neither construction work nor disturbing the ground is necessary – what a convenience!

## Spring business idea – easter eggs for public space

The catering industry have been struggling with many difficulties. There is no doubt that it is always worth looking into the future with optimism and getting ready for reopening of the places. In these exceptional times, the thing that matters is saving, therefore, plastic **Easter eggs for public space** turn out to be such a good solution. Wallet-friendly, light and fabulously colorful, they can go both inside the restaurant and decorate its exterior.

# Seasonal decorations for kindergartens

It is hard to find more vibrant and colorful place than kindergartens and nurseries! Children are extremely careful observers who will not miss any detail. When arranging their everyday space, choose aesthetic and, above all, safe decorations. Easter eggs, can be hung on the walls or arranged randomly by leaning them against the walls. Even the most unruly toddler will not hurt himself!

## Easter in the company

Even the most dynamically developing company is primarily people – people who create its success. It is worth appreciating their needs and give them a hint of color also in the place of everyday, intense work. Three-dimensional Easter decorations made of plastic can be placed along company corridors or hung on the walls. The only thing left is to choose a pattern and color – perhaps you will choose a theme

with your company's logo and some Easter wishes?
