

# The city of great changes is still open to new things

Torgau is a small town in eastern Germany famous for its well-preserved Renaissance architecture. As befits a city of great changes (and not only cultural ones!), impressive makeover has taken a place there ... From a typical, neat, yet monochromatic to the vibrant with life and colors old town, and all of that in just a few moments!

This quick transformation was possible thanks to the [huge pots](#) from the Gianto line. Contrary to appearances, the presence of

fabulously colorful, modern containers has not distorted the character of the old town ... after all, it is located in one of the most progressive cities in Europe!

Although Torgau is open to new things, it faces many limitations connected with preservation of the historic centre heritage. One of them is the restricted movement of heavy vehicles, which make bringing traditional decorations difficult.

However, it was enough to put on **large flower pots from the TerraForm collection**, which are light, and most importantly: mobile. The Gianto Tablo models ([pots with table](#)) and Gianto Sito ([pots with a seat](#)) have special grooves for a pallet truck – agile, powered by human muscles. Therefore, interference with the historic center does not require damaging the ground or exhaust emissions.

The colorful [flower pots](#) have reached the heart of Torgau in a completely non-invasive manner, without harming the surroundings. Thanks to their size, colors and form, they constitute a strong decorative accent that cannot be overlooked. Importantly, the Sito and Tablo pots are also additional benefits for passers-by – an alternative bench or table where you can read a newspaper, book or eat a meal comfortably.
