It made her debut only a year ago and ever since it has

enjoyed growing popularity. No wonder! The [Zebra round city bench](#) is not only made of colorful elements, but also it has an unusual backrest created by a large urban pot that is able to contain not only decorative plants, but even a large bush and tree. Thanks to such an original form, it is an impressive complement to a square without trees, a cobbled town square or ... a playground where children spend their time.

There is no zebra ... without stripes! The [Zebra urban bench](#) has a way more to offer than just a classic black and white finish. It can be ... whatever you want! From classic, toned and uniform gray to a multi-colored rainbow. Thanks to such a wide range of options, it works well both in the traditional space of the Old Market Square (often protected by the conservator's supervision), as well as in a free, colorful playground of a kindergarten or primary school.

Importantly, the [Zebra urban bench](#) is fixed to the ground with special anchors – without undue interference in the pavement. This means that it can also reach places with extensive underground infrastructure – above parking lots, pedestrian crossings or the sewage system. Even after fixing in a specific place, it will not have any effect on other components of the “urban tissue”, and it will never disappear from its place – whether due to strong wind or vandalism.
